

COLLABORATE

Workshop description

Build your creative collaboration skills

Creative ideas and solutions to business challenges are never born in isolation. Strong teams are able to draw on the creativity, the solution finding and strengths of all the members of the team. This workshop will take you through a series of activities that stimulate the creativity of the individuals, builds collaborative awareness and provides tools for working as a dynamic team able to collectively solve problems, set goals and implement actions.

Workshop content

Delegates are taken through a series of experiential and action-learning activities designed to build creative, collaborative teams. Participants experience each other's creative strengths in an unpressurised and fun environment and learn how to leverage off each other's strengths and abilities; become more open to new ideas; taking initiative and motivating each other.

Participants will

- Be exposed to each other's creative intelligences
- Understand how to leverage off each other's strengths and abilities
- Learn how to suspend judgement, be open to new ideas and motivate colleagues
- Understand how to build collaborative, integrated, well-functioning teams
- Be able to draw on the collective strengths of members to deliver optimal results and innovative products and services

Business outcomes

- Builds strong, creative and dynamic teams.

Target audience

This workshop is designed for newly established teams or existing teams.

Coaching and customisation

Our offering of unique learning experiences is fully customisable to your specific organisational needs, and can be utilised to address particular business challenges or team goals. It can also be applied to businesses in your Supply Chain.

Workshop overview

Creative ideas and solutions are never developed in isolation. Strong teams are able to draw on the creativity, solution-finding abilities and strengths of all members of the team. This one-day workshop helps your teams to deliver optimal results, and spark innovative products and services.

Facilitator : Dammon Rice

Facilitator, social entrepreneur, creative and independent thinker Dammon has worked in the field of youth development and adult education and training in the arts, heritage and

small business development sectors for the last 25 years. She has developed international award winning programmes, run her own businesses, and most recently is responsible for heading up CCDI Creative.

This is a great way to build team collaboration and bring an inter-departmental team together – it brings the company together on many levels.
- Workshop participant, Mazars
